## INTERNATIONAL BANK OF TORONTO, CANADA.

This institution has recently been organized with a nominal capital of (\$1,000,000,) One Million of Dollars, and have commenced circulating their bills in the Provinces, and in the United States to a considerable extent. We now give two good reasons why this money should be refused. These reasons are—

1st,—The bills of the International Bank are not taken on deposit, generally, by the solvent Banks in Canada.

2d,—The Bank is quoted, and spoken of in Platt Adams', (formerly Thompson's Reporter,) thus:—"We can assure the public that it is a regular Canada institution;" "almost entirely owned by citizens of Canada."

This QUOTATION and PUFF from such a source is enough! The Bank may truly say, "save us from our friends!" We shall have more to say about this International million dollar arrangement in the next issue of the Journal, as we do not intend to lose, or have our subscribers lose any considerable portion of this million, if we can help it.

## The Time is Soon Coming

When the Banks, good, bad, and indifferent, will commence circulating their issues to nearly or quite double the present amount. The circulation of the Banks in the United States has been reduced more than one-quarter during the past year, and now they are prepared and must expand to a large extent, especially the Banks of Pennsylvania, New England and Canada, which are not secured by deposit of Stocks, or other securities. Many of these Banks depend almost entirely upon circulation for profit, and hence they are forced to do business, or make no money.

The coming Spring is deemed a propitious time for the currency Banks and if they manage with ordinary discretion, prudence, and care, they may have a very successful season, and do a great deal of good by way of relieving many of the present prostrated branches of Trade and Commerce. The proportion of paper money now in circulation in the United States, is far less than in England and most of the nations and countries of Europe, and the loss on the paper money of late, is less than the wear and tear of the gold itself.

For our BROKEN BANK LIST, see page 31.

## FINANCIAL.

Owing to the war cloud in Europe; the indication of an appropriation of \$30,000,000 for the purchase of Cuba; the recent Federal Loan, and an increased demand for money on the street, the market for the last week has shown some symptoms of stringency—showing an advance of 1@2 per cent. on call loans, and on Tuesday a marked decline in Stocks, since when a slight re-action is perceptible. The prospect for a tight money market within the next few weeks, and a further decline in Railroad and fancy Stocks is now apparent.

For Stock quotations showing the variations since our last, we refer to our list on another page.

Reference to other columns of our Journal will prove, both that new shyster Banking schemes are afloat, and that the crisis for weak Banks is always present. We allude to the International Bank of Canada, in the one place, and the Warwick of Rhode Island in the other, in regard to which we hope that our explanation will prove satisfactory to our patrons.

The steamer on Wednesday took out \$572,456 in specie. There will be no steamer to-day, the Arago having been withdrawn.

There is no marked change in money, but the market is slightly irregular, the supply being abundant in some quarters and restricted in others. For the time, call loans are fully established at 1@1½ per cent. improvement on lowest rates, and the current price of money is 5 per cent, with some transactions at 4@4½, and still more at 6 per cent. Paper, sixty days to four months, goes at 5@6 per cent for desirable names, but is still scarce. The advance demanded keeps leading names out of the market to some extent, holders anticipating a decline next week, and has also prevented the creation of some paper. Some of the banks have been losing specie and deposits, and are indisposed to expand their loans any further; and, indeed, this is the general feeling among bank managers, but private capitalists have been drawn out by the better rate of interest established, and supply the market with considerably freedom.

## FAILURE OF THE WARWICK BANK, RHODE ISLAND.

The Reason we Quoted It in the Journal.

Sometime last autumn, Mr. G. A. Kenyon, called upon us and stated that he was President of the Warwick Bank of Rhode Island, and owned a controlling majority of the stock, that the Bank was one of the oldest in the State, and that it had always (even through the panic,) paid specie at its counter—their circulation was very small, not exceeding \$5,000—that the Bank had made arrangements with the Bank of Mutual Redemption at Boston, and the American Bank at Providence to redeem their bills, and that he was an independent and responsible man, a farmer by profession. This statement we believed, and learned to be substantially true. Mr. G. A. Kenyon furthermore assuring us upon his word and honor, and in the most solemn manner, that he would not sell or part with his interest in said Bank, under any circumstances, to irresponsible or unknown parties, or allow the Bank to be controlled or used by non-residents of that State, or in any manner depart from a strictly legitimate line of business, without first informing us of the facts.

From these assurances we quoted the Bank in the Journal for a short time. The result is Mr. G. A. Kenyon, has sold out the Warwick Bank to a clique of the most notorious and unscrupulous set of professional shysters, controlled by one Morris, the Prince of the Fraternity, (who is now under indictment in Pennsylvania,) and has been identified with several of the most flagrant, heartless, and cruel Bank failures, that ever occurred in the United States, viz.—Tiverton Bank, Warren County Bank, McKean County Bank, and other Banks of that class. The moment it was known that the Warwick Bank was in the hands of this fatal coterie, the authorities of R. I., very properly caused an injunction to be placed upon it, to guard the public against fraud, and thus it stands at present. We trust this explanation will vindicate us from any complicity or fault in quoting the Bank, as it is our pride and boast that we never knowingly quote bogus Banks.

The Warwick Bank is now under perpetual injunction, and will be soon in the hands of a Receiver, and wound up. The circulation is believed to be under \$14,000. and mostly in the hands of brokers, so that the public generally will not be sufferers to any considerable amount. We shall, however, continue to keep our subscribers advised from time to time, as to the progress of the Receiver's labors, and the value of the outstanding bills of the Warwick Bank.

Look Out for FIVES having for vignette a bust of Washington with two females on right, and three on left, and portrait of Jackson on right end, with figure 5 above and below. They are altered from the exploded "Mechanics' Bank of Memphis, Tenn.," and are well calculated to deceive. We gave a *fac simile* description of the plate in our last issue, to prevent their circulation, but have since learned that they have been altered to represent the issues of the Mechanics' Bank of Concord, N. H. Look out for them!

## OUR PRESENT LIST OF PRECARIOUS AND DOUBTFUL BANKS.

We have always discredited the following named Banks, in the body of our Journal, with a D, or a (\*) star, or both; because we have many reasons for believing their bills to be an unreliable, doubtful and dangerous currency. All of them are liable at any moment to depreciate, and some of them will become worthless, hence the safest way is to refuse them all.

Our Subscribers and readers will please bear in mind the *invariable* fate of all of this class of Banks, against which we have cautioned in *advance* of their failure, for years past, in the JOURNAL.

### Bad Prospects for Minnesota.

A correspondent writes as follows:—

"Minnesota is in considerable danger of getting into a system of wild-cat banking, from which there is no extrication but the valley and shadow of financial ruin. Ramsey County, and the city of St. Paul have made contracts with our note shavers to keep the Scrip, which they formerly have decreed, at par, by indorsing it redeemable in gold, and for this purpose the County and City have agreed to loan them an amount of Scrip equal to that which the brokers have agreed to redeem without interest. Thus for indorsing, say twenty thousand of scrip, they get the use of an equal amount for nothing, and the whole is shoved off as currency. The spectacle of the city of St. Paul co-operating with its brokers in setting afloat a shuipaster currency, in direct violation of public opinion, municipal decency, and statute law, can work out no present relief, and must seriously damage the finances of the State.

"A cart-load of bank bills are now in the safe of the State Auditor, waiting to be issued on the pledge of our bonds as soon as the market value thereof can be ascertained in New York; but as the bonds cannot be sold, they will lie out of circulation for some time.

"The startling news came from New York a few days ago that Gov. Sibley had failed to negotiate the State Bonds for Railroad purposes. Intense excitement was the natural consequence, for contractors, farmers, merchants, and laborers, had waited long in anxious expectation of a general pay day, which depended on the sale of the said bonds. The game is played out. Work on all the roads will stop. Some two thousand laborers out of employment, and with no means of gaining a living, will soon be demanding work or food. A sad and unfortunate state of affairs truly, for the magnificent prospect which opened up to Minnesota when Congress made the Land Grant for railroad construction, and when the State agreed to loan five million dollars in bonds to facilitate the work of developing the resources, and settling up the wild land within its borders. The prospect now is that of imminent danger of losing the Land Grant, the roads, and the money and indebtedness thus far expended in grading them. A serious prostration of business and crisis in monetary affairs must ensue. A gloomy cloud seems to rest over the horizon of our youthful but energetic State. Property will fall, and many failures take place, before we see happier times. Had the Legislature, which passed the Loan bill, been possessed of common sense or ordinary sagacity, it would have made provision for the prompt payment of the interest on the bonds by a State tax, and thus saved Minnesota the disgrace of baying her public faith and promises to pay kicked about by the Sbylocks of Wall-street. Gov. Sibley would do well to come home to his mourning people, call an extra session of the Legislature, and endeavor to get the wheels of public improvement again in motion."

## NEW FEATURE FOR 1859.

### EXTRA INDUCEMENTS.

In consequence of the extraordinary popularity, great demand, and rapid increase of circulation of the JOURNAL OF FINANCE AND BANK REPORTER, we are determined to spare neither time, trouble or expense, to make and keep it

### FAR SUPERIOR TO ALL OTHER WORKS

of a similar character. Therefore, after vast labor and expense, we are now prepared to announce to the public the completion of another new work, viz:—

### Hodges' Genuine Bank Notes of America.

This work contains a correct, succinct, and reliable description of every Genuine Bank Note in America, arranged in the best possible manner for convenience of reference in a small compass, and will be given

### FREE OF CHARGE

to all future subscribers to Hodges' JOURNAL OF FINANCE AND BANK REPORTER, who pays for one year in advance. Thus we offer more information of a better class, at a cheaper rate, than can be found in any other publication of the kind in the world, and we challenge comparison to the contrary.

The description of the Genuine Bank Notes of America is not calculated or designed to supersede or take the place of the BANK NOTE SAFE-GUARD, (as that is acknowledged to be the "ne plus ultra" of a Detector, and nothing can supercede or equal it.) But it is intended to answer as a substitute, and place the genuine bills within the reach of all classes; many, that think they cannot afford to take the SAFE-GUARD.

Every merchant or business man will save money by subscribing without delay for this REPORTER. It is now the STANDARD RELIABLE MONEY GUIDE, and warranted a sure protection against loss by bad money, and to give satisfaction. We desire and expect all of our old subscribers to stand by us, and influence as many new ones among their friends as possible, which favor will be appreciated and reciprocated, if possible

### NO BUSINESS MAN

Need ever lose a dollar by altered, spurious, or fraudulent money, if he keeps by him always the latest number of our Journal of Finance and Bank Reporter, examines, reads, and refers to it often, together with a copy of Hodges' NEW BANK NOTE SAFE-GUARD, which gives fac simile descriptions of ALL the genuine engraved Bank Notes in the United States and Canada, and is therefore, an infallible guide against nearly all classes of bad money.

The price of the Safe-Guard is only \$2, and can be sent to all parts of the Union, by mail.—No man should be without this work.

### THE HIGHEST PRICE.

Our subscribers and correspondents can always depend upon receiving the highest market price, (sometimes higher than our quotations, which are generally better than those of any other house,) for broken bank and other uncurrent money, sent to us by mail or otherwise. We remit promptly, on the same day as received, by draft, check, certificate of deposit, or place proceeds on deposit as desired.

## TO OUR SUBSCRIBERS.

Please Renew your Subscriptions.

Those whose year has expired, will oblige us by remitting the amount for the next year's subscription in advance, either in postage stamps or money, (at our risk when in registered letters.) Business men will bear in mind our reasonable terms, and that we intend to give them more information for their money the coming year than ever before, or than is given in any other Reporter, as there is every indication of an approaching era of Bank failures. Designing worthless money makers, will reap a rich harvest, unless people are kept well posted up about their Banks. Hence the IMPORTANCE and VALUE of having the most RELIABLE and ENTERPRISING Reporter, regardless of a few dollars expense.

## GAYETTY'S MEDICATED PAPER.

READ AND LEARN.

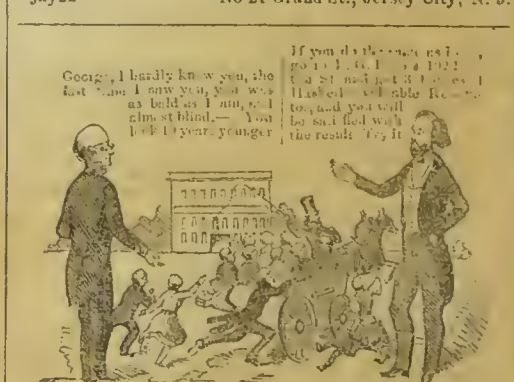

**JOSEPH C. GAYETTY, BEING DULY SWORN, DOETH** depose and say: That he originated Medicated Paper for the Water Closet in the year 1853, and that in the following year he filed his caveat at the proper office at Washington, D. C., for a patent. He furthermore depose and say that, to the best of his knowledge and belief, he alone—having discovered it—possesses the secret of medicating paper so as to cure and prevent Piles; and that the machinery by which it is made is so different from that used in ordinary paper mills, that nobody could adopt it without his aid. He al o declares that the process of manufacture is costly, and cannot be sustained excepting by large capitalists. In conclusion, he avers that he has investigated an imitation of Gayetty's Medicated Paper for the Water Closet, and has found it to be a base article—more cheap, ordinary yellow mulling paper—calculated from the chemicals it contains, to aggravate the disease which it is bogus doctor proprietor declares it will cure. **JOS. C. GAYETTY.**  
 Sworn to before me, the 13th day of January, 1859.  
**JAMES G. COOPER, Commissioner of Deeds.**

## DYSPEPSIA AND FITS.

**D. R. O. PHELPS BROWN, THE GREAT CURE OF CON-** sumption, was for several years so badly affected by Dyspepsia, that for a part of the time he was confined to his bed. He was eventually cured by a prescription furnished him by a young Clairvoyant girl. This prescription, given him by a mere child, while in a state of trance, has cured everybody who has taken it, never having failed once. It is equally as sure in cases of FITS as of DYSPEPSIA.

An engraving is here given of the principal herb employed in this medicine, and all of the ingredients may be found in any drug store. I will send this valuable prescription to any person on the receipt of one stamp to pay postage. Address **DR. O. PHELPS BROWN,** jay22 No 21 Grand St., Jersey City, N. J.

**C. F. HASKELL'S RESTITUTOR.**—The prize of the world, restores gray hair to its original color, prevents hair falling, promotes the growth, removes dandruff, irritability or feverish condition of the head, and makes the hair soft without oil; for inflamed eyes, chapped lips, styes, sick headache and erysipelas, it acts like a charm. It contains no nitrate of silver, corrosive sublimate or potassa. Prepared by F. G. FORD, 102 Fulton St. N. Y.

Price \$1 per bottle; 3 bottles for \$2; small bottles 25 cents.

SYRACUSE, NOV. 22d, 1854.

F. G. Ford, Esq., 102 Fulton Street, New York.

I was induced to try your Haskell's RESTITUTOR, to prevent the falling off of my hair, and to promote its growth, where my head was bald. I had previously tried Wood's and many others, but with no success. Since using Haskell's my whiskers have lost their gray appearance, and resumed their wonted color. My hair has stopped falling out—the bald places on my head are covered with a thick soft hair, and I think that I can now show as fine a head of hair as can be found anywhere on a man of my age, and all produced by the use of three bottles of Haskell's Restitutor.

It has removed all dandruff from my head, and given my hair a thickness, gloss, and softness that it possessed 30 years ago. I would recommend Haskell's Restitutor to any man who wishes to preserve a fine head of hair. To those with a bald head or gray hair I would say try it, for I feel confident if tried it will be approved.

**N. RANDALL.**  
 New York, Jan. 18, 1859.

Having seen some of the good effects of C. F. HASKELL'S Restitutor, prepared by F. G. Ford, and being informed as to its ingredients, I do not hesitate to say that it is a very good application in cases of external inflammations generally, but more especially in those of the eye and ear, in burns, wounds, diseases of the scalp, &c.

Its action is decidedly sedative, cooling and soothing the part.

Also, R. F. Hubbard's premium WILD CHERRY BITTERS, for Nervous Diseases and Dyspepsia. For sale wholesale and retail, at 102 Fulton Street, by C. F. Wells, No. 113 Franklin Street, and by all Druggists generally.
